WORK EXPERIENCES

MERN + RN Developer | Internship

2025 - Present

Automatech

Remote

- Selected via **Aignite 2.0 – TECHXHIBIT**, collaborated on real-world technology projects within an **Agile/Scrum team** (bi-weekly stand-ups, sprint tracking, 14+ hrs/week).
- Recognized as a **top performer** — among **3 of 12 interns** eligible for **outstanding contribution stipend** based on performance, teamwork, and innovation.

Technologies : React, MongoDB, Node.js, Tailwind CSS, Express

PROJECTS

SKILLBRIDGE | [Github](#)

Full-Stack Developer

- Developed a **full-stack peer-to-peer skill exchange platform** using **React, Node.js, Express, and MongoDB**. Integrated **JWT authentication** and real-time chat through [Socket.io](#).
- Enabled features such as skill-matching, ratings/reviews, video calls, and an AI assistant for enhanced user-to-user learning experiences. Utilized **Cloudinary** for media uploads.

Tools Used : React.js, Node.js, MongoDB, Socket.io, Docker, Google OAuth

Resume Search Engine | [Github](#)

- Developed an **AI-powered resume search engine** that parses PDF, DOCX, and TXT resumes. **Chunked and embedded** content into 384-dimensional vectors using all-MiniLM-L6-v2, storing them in ChromaDB for **semantic retrieval**.
- Implemented a cosine-similarity ranking pipeline, featuring both a CLI and a Streamlit web app for recruiters to effectively search candidates by job description.

Tools Used : Python, chromadb, pypdf, torch

SKILLS

Databases :	MongoDB, MySQL
Frameworks & Libraries :	React.js, Node.js, Express, Tailwind CSS
Languages :	English, Kannada, Hindi
Programming Languages :	Python, Java, C, JavaScript, HTML
Soft Skills :	Time Management, Decision Making
Tools & Platforms :	Git, GitHub, CI/CD, Socket.io, Docker, Google OAuth, Cloudinary, ChromaDB

AWARDS & ACHIEVEMENTS

HACKABHiGNA 2025

Oct 29-30, 2025

- Participated in **24-hour National Level Hackathon** (Fullstack Marketing Analytics & Agentic Flow) at AIT, Chikkamagaluru, facilitated by Google Student Ambassador Program; sponsored by Google Gemini, Streamz AI & Environ India.

GameForge

Runner-Up — GameForge (Game Development using Python), Club Avinya, Rajeev Institute of Technology, Hassan (Sept 2025)

Achieved Runner-up position in the GameForge competition, showcasing **innovative game design** and **strong technical execution** among competing teams in game development using Python.

EDUCATIONS

Rajeev Institute of Technology, Hassan (VTU)

2023 - 2027

B.E. — Information Science & Engineering

CGPA : 8.36

- **Relevant Coursework**: Data Structures & Algorithms, DBMS, OS, Computer Networks, OOP, Software Engineering, Machine Learning
